## **Remembering Leland Stewart**

On Saturday, March 10, in the presence of friends and loved ones, Reverend Leland P Stewart, Founder and central coordinator of Unity and Diversity World Council, passed away at Marina Del Rey Hospital at 2.30 pm.

Leland was a pioneer in the Interfaith movement and for more than 50 years helped make Interfaith a term that we are all familiar with. He saw the unity underlying the rich diversity of all existence and devoted his life to the understanding that all religions derive their spiritual sustenance from the one mysterious source of all creation.

He was a visionary leader, standing not only for the interfaith movement, but for peace, justice and the building of a sustainable future for us all. His legacy remains strong and he will always be remembered and respected for his dedication and commitment. His spirit, now liberated from earthly constraints, lives on in our hearts, and as a beacon of light showing the way through a troubled world.

***Please join us in our creative dialogue as we remember Leland and  
celebrate his life***
